

Renault Trucks in collaboration with Actia is pleased to introduce:

Diag NG³

- ❖ The design of the Diag NG3, resulting from a close cooperation between Renault Trucks and Actia, is based on a marketing survey conducted by Renault Trucks in its after-sales network.
- ❖ Both Renault Trucks and Actia, believe that you deserve a high-tech tool that is powerful, longlasting, easy to use and perfectly suited to your needs.

Performance and user friendliness

- ❖ Your diagnostics will be more advanced, more effective and more accurate, by using the tool Diag NG3.
- ❖ It adapts itself to developments in vehicle design. The accessories were specially designed for Diag NG3 in order to help you resolve the most complex problems simply and easily:
 - ❖ Docking station,
 - ❖ Trolley,
 - ❖ Cables,
 - ❖ Additional batteries,
 - ❖ Measurement unit
 - ❖ Endoscope.
- ❖ Using the wireless radio-frequency technology equipping the Diag NG3, you can now move about without any constraint in the workshop, receive dependable ECU Dataset (W-Data) and connect to the Renault Trucks Telematic Services without worrying about the cables and connections.

The touchscreen and its pen, rubbers, and a comfortable handle make easier and secure the daily use of it in all circumstances.

The vehicle communication interface is equipped with Wireless-Lan and offers a secure use also on the road !

The workshop terminal is a radio frequency computer system allowing the tablet to access the services proposed by the Renault Trucks Telematic Services, without a wire connection to the computer network of the site.

The principal function of the ACTIA endoscope is to view the parts of a vehicle inaccessible to the naked eye, for checking them.

Passing through the injector or the spark plug holes, it allows viewing in real time:

- The cylinders (checking the surface conditions of the sleeves and the valves)
- The engine compartment (detection of leaks and checking the condition of connections)
- The interior of manifolds...

The Actia endoscope enables you also the saving of photos.

Powerful and faster

Through the Pentium Processor, the harddisk with 10Gb und 256 MB Ram, The Diag NG3 is compatible with the previous and future software.

Local installation

We offer you local installation through our experienced installation partners.

Financing

Do you wish a fast easy access to our products ? We bring you in contact with our experienced Leasing partner.
